

Program Release Notes v2.0.11

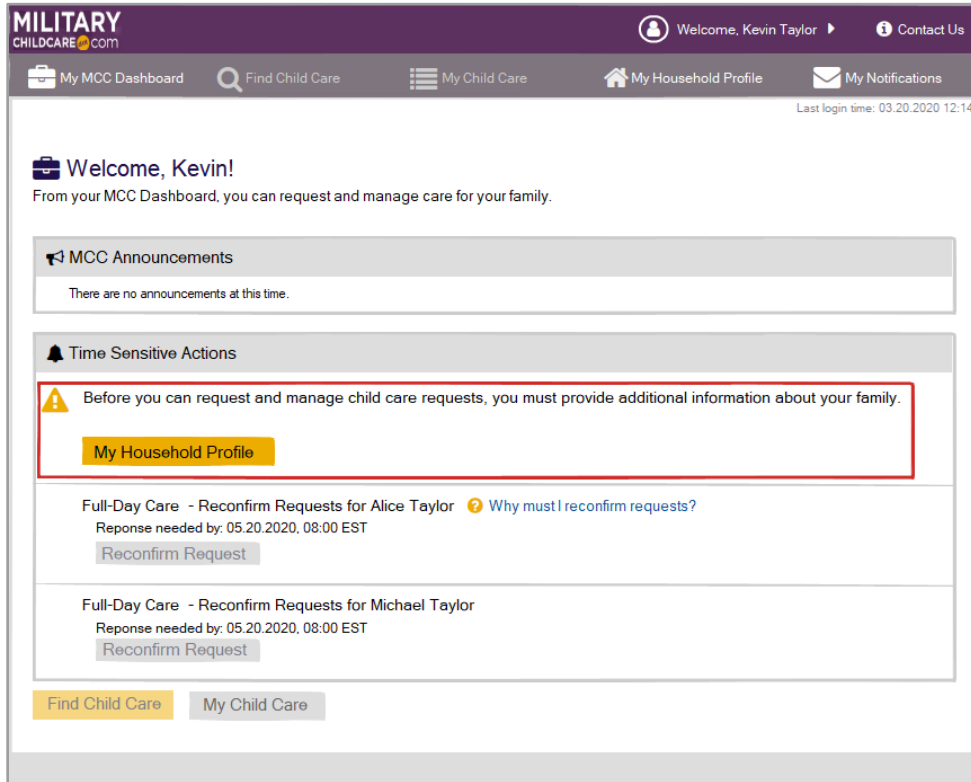

On 5 August 2020, MilitaryChildCare.com (MCC) was upgraded to include several enhancements. The enhancements are summarized in the table below. Additional details about each enhancement are included in subsequent sections of this document if relevant.

Enhancement Area	Details
Household Profiles set to “in process” and reconfirm cycle implemented	<p>In order to collect the information needed to implement the pending DoD priority change, two actions will be taken:</p> <ul style="list-style-type: none"> ▪ First, all households will be set to in process if the family has not indicated whether they are working full and part-time. ▪ Second, the system will be set to perform a reconfirm on August 5 for households that have at least one active request and their Household Profile has been set to in process. <p>As a result, families with active requests who also have a status of working will be required to update their household to provide their working status (e.g., full or part-time). If no action is taken, their active requests for care will be cancelled.</p>
School Age Care 2020 Options	<p>Given the impact of COVID 19 on program and school operations, School Age Care programs may need to setup and manage a flexible school day schedule in MilitaryChildCare.com (MCC). As a result, MCC will be modified to include an additional care offering titled Alternative School Day Care.</p> <p>See https://www.mcccentral.com/iF6 for the handout, which describes when and how to use this care offering.</p>

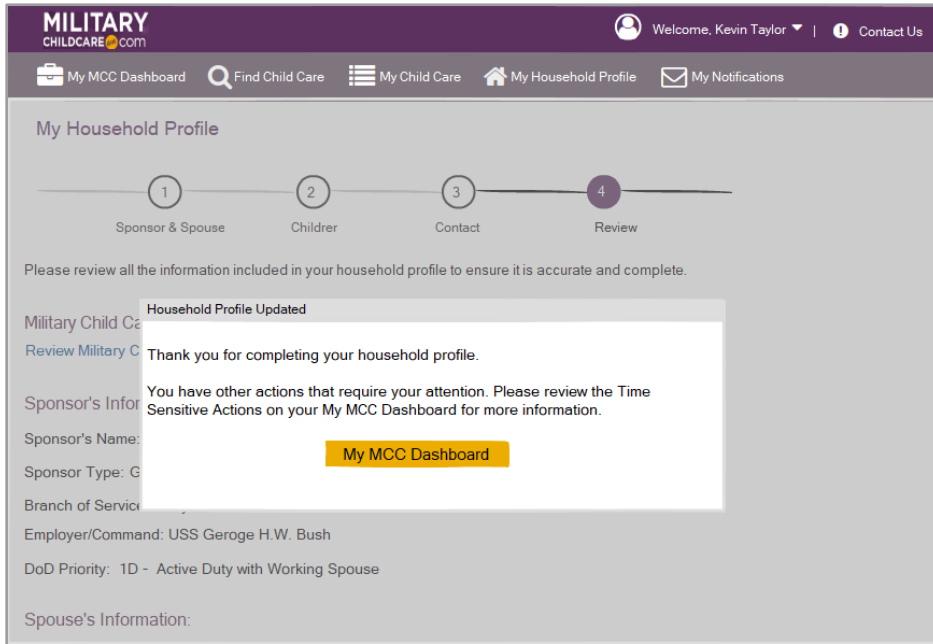

Household Profiles Set to In Process

In order to collect the information needed to implement the pending DoD priority change, Household Profiles with sponsors who have not indicated they are working on a full or part-time basis will be set to in process.

1. When a family logs into MCC and their Household profile is set to in process, they will see a reminder on the Time Sensitive Actions section to provide additional Household Profile information.

2. Families with in process households will not be able to search for care, access their My Child Care page, or reconfirm their requests until their Household Profile has been updated. However, families with in process households will be able to accept or decline offers from their dashboard under the Time-Sensitive actions section.
3. Once a family completes their Household Profile, a reminder message will appear if they have other actions to complete (such as reconfirm requests).

Reconfirm Cycle

Families with households set to in process who also have active requests for care will be required to update their household profile and also reconfirm their requests. This one-time special reconfirm will include all care types except for summer camp, including care types and situations that are typically not eligible for reconfirm, such as Seasonal Camps and families with Projected requests.

Families with households set to in process who do not have active requests for care will be required to update their household profile before they can search for and place a new request.
