## Work Status for Existing Households

If an existing household includes a working sponsor or spouse, and a family or program user accesses the household, working status must be updated to indicate whether the sponsor and/or spouse is working full-time or part-time.

Military child care programs offer care to families in accordance with the DoD's priority system. The system is designed to assist the most mission-critical families with the highest need for care with accessing child care first. Your family's Sponsor's type, together with the spouse's employment status, help us determine your family's priority for care.

Below is a list of all eligible Sponsor Types in order of priority, with the highest priority listed first. Please select the Sponsor Type that applies to your family. If the Sponsor falls into more than one Sponsor Type, please choose the option that is highest in the list. For example, if the Sponsor is a DoD Civilian who is also a Military Retiree, please choose DoD Civilian because that Sponsor Type has a higher priority.
