

## MCC 2.2.3 Release Notes

On 15 August 2022, MilitaryChildCare.com (MCC) was upgraded to include several new features and to resolve known issues, described below.

| Enhancement Area             | Details  |
|------------------------------|--|
| Access MCC through Launchpad | <p>MCC program users will now log in to MCC through the Military Children, Youth and Family Joint Application Suite (JAS) Launchpad. JAS consolidates multiple applications that support military families and programs into a single Launchpad, including</p> <ul style="list-style-type: none"> <li>▪ MilitaryChildCare.com (MCC)</li> <li>▪ Child and Youth Program Inspection Management System (IMS)</li> <li>▪ Family Programs Certification Management System (FPCMS)</li> <li>▪ Fee Assistance Management System (FAMS)</li> <li>▪ MCC Central</li> </ul> <p>Benefits:</p> <ul style="list-style-type: none"> <li>▪ Users will no longer need to log in to each application separately</li> <li>▪ Access MCC or another application by selecting the tile</li> <li>▪ See alerts pertinent to an application directly from Launchpad</li> </ul> |
| New MCC Headers              | <ul style="list-style-type: none"> <li>▪ The MCC Program site header has been updated so that logged in users can access the MCC homepages, return to the JAS Launchpad, update their contact information and access MCC Central. See Figure 1 below.</li> <li>▪ The MCC Family site header has been updated to include a link to the MCC Public Site. See Figure 2 below.</li> </ul>  |

## Resolved Known Issues

The following known issues are resolved with the 2.2.3 release.

| Defect Number | Summary   | User Type | Program Type | Component        |
|---------------|---|-----------|--------------|------------------|
| 59754         | Requests for 'Any FCC Provider' are not being updated to 'Unfulfilled/Cancelled' when an FCC Program is moved to long term or permanent closure.  | Program   | MCC          | Request for Care |
| 58320         | If a program/FCC provider defines a custom age range for a care option, they may not see all children who have requested a care option when they access View Waitlist. For example, a program applies a custom age range for full-day care. When they generate the View Waitlist, if a child's age is not within the custom age range, the child will not be included in the list even though they will meet the custom age requirement on their DCN. | Program   | MCC          | View Waitlist    |
| 62758         | Family is unable to add or remove offerings from a child's request in 'My Child Care'. When attempting to add or remove a care offering from an existing request, a family user receives an error when saving the request. This is occurring within the 'Update Care Requested' link in My Child Care. However, a program user is able to save the change from 'Manage Care.'   | Program   | MCC          | My Child Care    |
| 62784         | When generating the 'Children in the Offer Process Report', 'No Reason Given' is sometimes being displayed in the Decline Reason column even though a family or program user selected a decline reason from the modal.  | Program   | MCC          | Reports          |
| 62805         | Signature formatting in the system-generated email does not match the signature in the program profile set-up. The information entered into the signature box is listed as one long sentence rather than with hard returns.   | Program   | MCC<br>MCCYN | Program Profile  |

## MCC 2.2.3 Release Notes

---

| Defect Number | Summary   | User Type | Program Type                     | Component            |
|---------------|---|-----------|----------------------------------|----------------------|
| 62810         | When families select, 'My child's school is not listed' when searching for school year care, then changes their child to a non-school age child, the MCCYN program continues to show even though the child would not be eligible.   | Family    | MCCYN                            | Find Care            |
| 63310         | The MCCYN Waitlist Export file is including requests from all capacity zones regardless of whether the waitlist was filtered by capacity zone when the export was selected.   | Program   | MCCYN                            | MCCYN /EFMP Waitlist |
| 64633         | The signature on the Offer Accepted Notification for In Home Care is displayed in one line. The signature should be displayed with line breaks. This is only occurring on the Notifications listed under the family account and is not seen on the Program side of the application. | Family    | In-Home Child Care Pilot Program | Notifications        |
