

Program Release Notes 2.2.2.1

On 15 April 2022 MilitaryChildCare.com (MCC) was upgraded to include several enhancements. These enhancements are summarized in the table below and additional details are provided in the section that follows.

Feature	Description
Add Space Force as a household branch	<ul style="list-style-type: none"> ▪ Space Force has been added as an option for the sponsor and spouse Branch of Service. ▪ An announcement will be posted to family’s MCC Dashboard informing Space Force families to update their household profile.
MCCYN requests not in a Capacity Zone are grouped under “Undefined”	<ul style="list-style-type: none"> ▪ “Undefined” has been added as an option to the View MCCYN/EFMP Waitlist and MCCYN/EFMP Make Offer Capacity Zone filters. ▪ MCCYN requests that are not geo-dispersed or associated with an MCCYN-enabled installation will be associated with the “Undefined” option.
Eligibility Exception Icon	<ul style="list-style-type: none"> ▪ A flag icon will identify requests with an eligibility exception <ul style="list-style-type: none"> – Requests with an installation eligibility exception will be flagged on the View Waitlist, Make Offer, and Placement List screens. – Requests with a fee assistance eligibility exception will be flagged on the MCCYN/EFMP Make Offer and MCCYN/EFMP Placement List screens. These requests are already flagged on the MCCYN/EFMP View Waitlist.
New OSD Unmet Need Reports	<ul style="list-style-type: none"> ▪ Two new Office of the Secretary of Defense (OSD) reports are available: <ul style="list-style-type: none"> – The OSD Unmet Need report identifies the number of children that have unmet needs by Service within identified metro zones and DoD-wide. The report also includes the average wait time for children with unmet needs for each metro zone and across DoD. – The OSD Unmet Need Installation report identifies the number of children that have an unmet need by Service at installations identified within metro zones.

MCCYN Requests not in a Capacity Zone are Grouped under “Undefined”

MCCYN leadership may authorize an exception to allow a request for MCCYN Fee Assistance in a location not pre-determined eligible for fee assistance (i.e., not associated with an MCCYN-enabled installation and not geo-dispersed). To facilitate review of these requests and making offers, an option of “Undefined” has been added to the Capacity Zone drop-down list for the View MCCYN/EFMP Waitlist filter. When “Undefined” is selected, only children with fee assistance requests that do not belong to a defined Capacity Zone will be displayed.

Eligibility Exception Icon

An icon has been added to identify requests that have one of the eligibility exceptions.

- Installation Eligibility Exception: Some installations have approved policy exceptions that make specific families eligible for military child care who would otherwise be ineligible.

Program Release Notes v2.2.2.1

- Fee Assistance Eligibility Exceptions

- Mission-Related Priority Exception: Fee Assistance programs can provide eligibility to family types that are not eligible for a Fee Assistance program per the standard eligibility criteria.
- Individual Eligibility Exception: Program users can create a request for care for a child that is not eligible for a Fee Assistance program per the standard eligibility criteria or for an installation that has not been pre-determined eligible for MCCYN.

INSTALLATION ELIGIBILITY EXCEPTION

An icon has been added to the View Waitlist, Make Offer, and Placement List screens. The icon  displays in the legend and next to the child's name for requests with an installation eligibility exception.

VIEW WAITLIST

View Waitlist

The View Waitlist provides a comprehensive view of all children on your waitlist and their requests, including those for other programs or FCC providers and any alternative viable options (AVOs).

Use the Waitlist to identify (1) children with IAT information, (2) wounded warriors who may need authorization, and (3) requests with missing school information (since offers cannot be made until this information is provided). However, do not use the Waitlist to make offers. To determine accurate sequencing for offers based on the date care available and make offers, select the Make Offer tile from the My MCC Dashboard.

Complete the filters to describe the waitlist you wish to view.

*Branch: *Region: *Installation: Program Type: Program/Provider: *Care Type:

Optional: You can select additional filters to further limit your results.

OSD Reports

Two new OSD reports have been added. The OSD Unmet Need report may be used by OSD personnel to create a monthly presentation to the Secretary of Defense and the Service Secretariats. Service HQ users will use the report for situational awareness and as a resource for the immediate and unmet needs, and performance wait times in the identified metro zones. The OSD Unmet Need Installation report may be used by DoD personnel to view the number of unmet needs (i.e., family has not received an offer and the child's date care needed (DCN) has passed) per metro zone and installation for all priorities in a single list.
