

Position Group Overview: Army

This document outlines the process to request (a) new MCC program user accounts (for existing programs), (b) modify existing program user accounts, and (c) remove existing program user accounts. A different process has been established to request new program users when a new program profile is being established in MCC. See the Program Profile section of the reference guide for more information. Common user management terms and concepts are included at the bottom of the document for quick reference.

Authorized Users

Only authorized users can request a new program user account or request modifications to or deletion of existing user accounts. Authorized users include:

1. Service Representatives, who can request access for anyone in their Service. They are the only people authorized to request a new or modify an existing MCC Coordinator account.
2. MCC Coordinators, who can request access for anyone under their AOR.
3. FCC Coordinators, who can request access for providers under their AOR.

Program User Request Process

To request a new program user for an existing program or modifications to an existing user, an authorized user must email the Support Desk at ProgramSupport@militarychildcare.com with the following information.

1. First and last name
2. Email address
3. Branch
4. Region
5. Installation
6. Position group. Refer to the Position Group list below for a list of your Service's approved position groups and a description of roles associated with each position group.

The Support Desk will perform the requested changes in MCC and notify you once the actions are complete.

When you receive this notification, ensure (a) each new user received an email on how to finalize their program user account, and that they successfully completed this step and are able to log on to MCC or (b) each existing user can now perform the expected activities in MCC.

Position Groups

The Army Service Representatives established the following position groups and assigned each one a series of roles to reflect their use of MCC.

When a new program user needs access to MCC or an existing user's role has changed, review the chart below to identify the lowest position group that allows them to complete their work while protecting PII saved in MCC. It is also important to ensure assignment is reflective of the user's role. For instance, an FCC provider should not be assigned the FCC Director position group. A user can be assigned to more than one position group if they are a director of more than one program type (i.e., SAC Director and CDC Director). MCC Coordinators have the greatest permissions, so would not need additional position group assignments.

Position Group Overview – Army

Position Group	Roles
<p>FCC Provider</p> <p>Description: Manage their own provider profile and generate the Program and Care Option report</p>	<ul style="list-style-type: none"> ▪ Provider: Manage-Self. User can make updates to the provider profile details, school information, care options, and resources tabs, including the ability to delete photos, delete schools served, delete care options, and delete resources. User can also indicate that a care option is no longer needed. User cannot change provider location, address, or name, nor can they activate a care option. ▪ Reports: Program and Care Option. User can generate the Program and Care Option report.
<p>FCC Director FCC Administrative Assistant</p> <p>Description: View waitlist, manage provider profile, and generate the multiple reports</p>	<ul style="list-style-type: none"> ▪ Provider: Manage Provider Profile. User can make updates to the provider profile details, school information, care options, and resources tabs, including the ability to delete photos, delete schools served, delete care options, and delete resources. User can also activate a care option and indicate that a care option is no longer needed and also update provider location, address, and name. ▪ Provider: View Waitlist. User can view and export the waitlist. ▪ Reports: Interview Process. User can generate the Interview Process Report, including the Children with Interviews Report. ▪ Reports: Offer Process. User can generate the Offer Process Report, including the Children with Offers Report. ▪ Reports: Program and Care Option. User can generate the Program and Care Option report. ▪ Reports: Waitlist Metric. User can generate the Waitlist Metric Report.
<p>CDC Director SAC Director 24/7 Director</p> <p>Description: View the program profile, view the waitlist, and generate multiple reports</p>	<ul style="list-style-type: none"> ▪ Program: View Program Profile. User can view the program profile details, school information, care options, and resources tabs. <i>Reminder: only the MCC Coordinator can update the program profile.</i> ▪ Program: View Waitlist. User can view and export the waitlist. ▪ Reports: Offer Process. User can generate the Offer Process Report, including the Children with Offers Report. ▪ Reports: Program and Care Option. User can generate the Program and Care Option report. ▪ Reports: Waitlist Metric. User can generate the Waitlist Metric Report.

User can generate the Waitlist Metric Report.

Terms and Concepts

Managing users in MCC requires an understanding of the following terms and concepts:

1. Permissions: individual actions that can be taken in MCC. Examples:
 - Accept offer
 - View placement list
2. Roles: logical groupings of permissions. Examples:
 - Manage Waitlist. User can make an offer; accept, decline, remove, and complete offers; and export the waitlist
 - View Waitlist. User can view the waitlist and placement list and export the waitlist

Position Group Overview – Army

3. Position groups: assignment of roles to certain positions. The number of position groups varies by Service, as do the names assigned to each position group to ensure the position groups align with the titles used by each Service and can easily be managed by the MCC Coordinator. Examples:
 - CDC Director
 - FCC provider
4. Area of Responsibility (AOR): defines how much household and request data can be viewed in MCC. Options include the ability to
 - View own program (e.g., Main CDC, Central SAC, FCC provider Mary Smith)
 - View multiple programs/providers within a single program type (e.g., all FCC programs, all CDC programs)
 - View all programs across the Installation (e.g., all CDC, SAC, and FCC programs)
